- JavaScript
- HTML & CSS
- React JS
- Python
- Excel
- Premiere Pro

Software: Git Bash, GitHub, Node.js, SQL, Figma, Office 365, Adobe

EXPERIENCE

Internship Café 2022
- I was the project manager of the Internship Café event organized by TalTech and the IT Student Council.
- I designed and developed a website for the event.
- The event is an information day for TalTech students, where the best local and international companies' representatives and future interns meet.
- 24 IT companies attended the event along with 200 people.

Kuressaare Gümnaasium LAN 2019
- I developed a mobile application and website for a large LAN event where I was one of the organizers.
- Worked on a stream for which I made visuals and transitions.
- I made a Python script that, along with the mobile app, showed the changes made to the application on the steam.

Section commander and Best Soldier in the military
- Selected the Best Soldier out of 200 for my competence.
- As a section commander, I learned what it means to be a leader and all the responsibility that comes with it.
- I automated a large number of Excel spreadsheets. I worked with both large and small datasets.

University of Tarty programming course
- I made a Python program for my final project.
- I was one of the only ones who successfully completed the course in my class.

Student board in high school
- I was elected to the student board for my activity.
- Through my busy schedule, I have learned to plan my time.

KLEMM
- In high school, I was in a robotics team.
- With our achievements we managed to represent Estonia at the First Lego League European Championships in Denmark.
- I was involved in programming and building the robot.

HOBBIES

- I actively participate in IT schoolings
- I associate myself with all kinds of cool events
- I exercise regularly

LANGUAGE

- English (CAE C1)
- Estonian (native)
- Russian (A1)

LICENCE

- B Category driving licence
